AIR METHODS OF "SLEEPER" TRUNK

Dressmakers at Smuggling Conspiracy Trial Tell of Agreements Made.

New York, April 30.—In the testimony taken yesterday in the trial of Philip A. Phillips, May S. Moore and Isabel Holland, charged with conspiracy to defraud the government by smuggling, interesting information was obtained by Mr. Dorr, Assistant United States District Attorney, regarding the ways by which the game of the "sleeper" trunk is played. The trial is before Judge Martin and a jury in the United States District Court.

Robert Schwartz, formerly dock baggagemaster at the American Line pier, who was indicted with the three others and pleaded guilty, explained, when asked why he had become a government witness, that he had "decided to get on the bandwagon as soon as he heard that those women had 'squealed'." He added that he had a mother eighty-three years old, and for her sake he was giving evidence against the others.

His profits on the trunks which he assisted Phillips to smuggle through, the witness testified, were from \$50 to \$115 a trunk. Other testimony was to the effect that the trunks were valued at \$2,000 to \$3,000 each, and that \$500 was generally paid to an inspector named Fawcett.

Miss Elizabeth R. Dinmore, a dressmaker for twenty-five years at 305 Fifth Avenue, testified that she met Fawcett in Paris in 1904 and that he offered to get her trunks through free of duty if she would pay him \$500 for each trunk. She said she knew that Miss Moore and Fawcett were acquainted, and that Miss Moore's purchases in Paris were large. She said she paid Fawcett in checks.

Mme. VoThaoren, a dressmaker, testified that Fawcett had offered to pass her trunks for \$50 each. She had one trunk come over, but as it was detected, she had to pay duty. She said Fawcett nothing, she said, and had nothing more to do with him.

The trial was adjourned to Monday.

BLAMES FORT FOR BANKRUPTCY.

Water Company Head Says Governor Killed Concern's Credit.

Trenton, April 30.—Harry Hubbard and William M. Leonard, both of Manhattan, were appointed receivers for the Hudson County Water Company by Justice Lansing in the United States Circuit Court. Damage for the insolvency is laid at the door of Governor Fort in the formal application for the appointment of receivers, made by Turner A. Beall, of No. 12 East Thirty-first Street, Manhattan, president, and one of the largest stockholders of the company.

Beall asserts the entire credit of the company was destroyed and the completion of his work delayed by statements to the press made by Governor Fort last October. Summarized, these statements were that the Governor intended to call a special session of the Legislature for the passing of laws to prevent the taking of water out of the State. Beall further asserts in his application that bankers refused to advance funds or to buy the bonds of the company as a direct result of Fort's remarks.

The Governor did not call the special session, but in various other ways the work of the company was delayed until the new Legislature met, since when bills to prevent diversion of water outside the State have become laws.

The schedule added to the application by Beall fixes the liabilities of the company at \$35,000 in bonds, those being secured by a first mortgage to the Mechanics' Trust Company of Jersey City as trustees. Also included in the liabilities are \$110,000 of accounts and bills payable and interest coupons.

The plant and the partly finished equipment, estimated to be worth \$500,000, constitute a large part of the assets of the insolvent company. Also there are \$500,000 of stocks, bonds and other securities of the water company and other corporations. Contracts are included among the assets, these being with the city of New York to supply the Borough of Richmond with water, and with the United States government to supply water for the fortifications in Station Island.

A Pair of May Manton \$5 Shoes FREE

Sauers THE BEST BY EVERY TEST

WILL MAKE TESTS IN COURT ROOM

Gruesome Evidence to Be Offered in the Swope Case.

WILL USE LIVING ANIMALS

Every Opportunity to Be Taken to Impress Jury With Reactions of Fluids.

(Special to The Times-Dispatch.) Kansas City, Mo., April 30.—That Colonel Thomas H. Swope's liver, and probably his entire viscera, is in liquid form, and that it will be in bottles if it is brought into the courtroom during the Hyde murder trial next week, was revealed during the testimony of Dr. Ludwig Hecktoen this afternoon, on cross-examination by Frank P. Walsh.

When asked as to whether any of the liver of Colonel Swope was still in existence, Dr. Hecktoen hesitated a moment and then remarked: "I don't know, but I think some of the extract is." The great part of Chrisman Swope's viscera, that portion of the liver, kidneys and the walls of the stomach and portions of the intestines, are said to have been brought to Kansas City and have been carefully sealed and guarded. These, with the bottles and jars containing the remnants of Colonel Swope's interior anatomy, and extracts therefrom, are to be produced by the State early next week, possibly on Monday.

With the production of the viscera will come the chemical tests which have been planned shall be made before the jury. Whether they will be permitted has not been ascertained. If they are, the microscopical tests will be made to a great extent a chemical laboratory for the various tests for poisons, such as cyanide of potassium and strychnine will be made in all of their details.

The tests will be amplified, to the extent of experimenting on living animals, and no possible opportunity is to be lost to impress on the jury the chance of the reactions of these poisons.

Testimony of Dr. Hecktoen.

The testimony of Dr. Hecktoen today was looked up with favor by the defense. His statements, on direct examination, were to the effect that the autopsies on the bodies of Colonel Thomas H. Swope and Chrisman Swope further testified that the microscopic examination did not show cause of death in the case of either. In reply to a hypothetical question of more than 2,000 words, propounded by one of the counsel for the State, Dr. Hecktoen declared that the death of Colonel Swope was due apparently to a paralyzing and convulsive poison.

Where the defense made its lead was when Dr. Hecktoen testified he had been employed by Mr. Paxton. This fact was brought out in all of its detail. Then came the admission from Dr. Hecktoen that on the first analysis, made by Dr. Walter S. Haines, of Chicago, no strychnine was found in the ejecta of Miss Margaret Swope, and no poison was found in the capsules, which had been given him for chemical analysis. Reports to this effect were made to Mr. Paxton, who the following day was sued for libel.

When Mr. Walsh asked Dr. Hecktoen if it were not true that Dr. E. E. Smith, of New York City, and Dr. Cross, the City Chemist of Kansas City, as representatives of Dr. Hyde, had made a futile demand on him and Dr. Haines for a portion of the viscera of Colonel Swope, a storm of objection was made by the State, which resulted in arguments that lasted until court adjourned.

Judge Latschaw will rule on the admissibility of the question.

Petersburg Tobacco Market.

(Special to The Times-Dispatch.) Petersburg, Va., April 30.—Supervisor J. B. McCulloch furnishes the following official statement of the sales of loose tobacco in Petersburg:

Sales for this week..... 145,950 Pounds.

Sales for the season..... 6,723,940

The prices this week were high and the average good. It is estimated that the tobacco not yet marketed will bring the aggregate sales for the season up to about 7,500,000 pounds.

WILL MARCH INTO STANTON.

V. M. I. Cadets Interested in Approaching Trip and Encampment.

(Special to The Times-Dispatch.) Lexington, Va., April 30.—Much interest is felt among the cadets of the Virginia Military Institute over their prospective trip to Stanton early in May, during which they will enjoy "life on the road."

The trip will be made by easy marches, and the young soldiers will spend some days in camp. They will leave the V. M. I. on the morning of May 9 and on their outgoing trip will spend the first night at Fairfax, twelve miles north of Lexington, and the second night at Greenville, another lap of twelve miles. A day will be spent in the Valley City, when the boys will face homeward, spending the two nights at Middlebrook and Brownsburg, respectively, returning by way of dis-

misappropriation of the funds of the bank. This jury prayed the court to give the defendant all the money in his power.

Counsel for Carraway at once moved to set aside the verdict, which was denied. Then a motion for a new trial was made, and this also denied. Judge Conner stated that he was disposed to take the suggestion of the jury and that he would give Carraway the minimum sentence—five years in the Atlanta penitentiary. An appeal was spoken of and the bond fixed at \$10,000, but this was dropped, and Carraway left for Raleigh this evening, in charge of Deputy Marshal R. W. Ward.

The cases of Stevens and Taylor, charged as accessories, were continued and their bonds reduced to \$2,000 each. The general impression is that these cases will never be called.

STUDENT AND GIRL MYSTIFY PARENTS

Poughkeepsie, N. Y., April 30.—Friends of Leverett Griggs and Miss Helen McLean, both of this city, are awaiting with interest an explanation of the circumstance that moved both to leave here suddenly last Thursday night.

Mr. Griggs is eighteen years old and a son of Professor John C. Griggs, of Vassar College. Miss McLean is seventeen and a daughter of J. E. McLean, a wealthy manufacturer.

Although both left Poughkeepsie at about the same time, no importance would have been attached to that fact had it not been that Mr. Griggs sent a note from Miss McLean to her mother at a time when he was supposed to have been on his way to stay with friends in Waterbury, Conn.

The Griggs and McLean families are friendly, but no engagement has ever existed between the young couple. Late Thursday night Mrs. McLean received a note from her daughter saying that she would not be home. The note was brought by a messenger, who stated that young Mr. Griggs had sent him with it. Mrs. McLean sought out Professor Griggs, who expressed surprise, saying that he had sent his son to Connecticut in the afternoon, after taking him to task for not making better progress at the Riverview Military Academy, where the young man is a student.

Neither the Griggs nor McLean families would discuss the matter, except to declare that although Mr. Griggs and Miss McLean apparently had left Poughkeepsie at about the same time, they certainly could not have gone away together.

ASK HEARING ON SUGAR LAND DEALS

Washington, D. C., April 30.—Representative John A. Martin, of Colorado, wants a hearing on his resolution, now pigeon-holed by the Committee on Rules, calling for a joint House and Senate investigation of the transfers to the Sugar Trust of great tracts of lands in the Philippine Islands. He has made formal demand in writing upon the chairman of the committee, Mr. Dabell, for a hearing. Mr. Martin said:

"The admission by General Edwards, chief of the Bureau of Insular Affairs, that the sale of the 55,000-acre San Jose estate in the Island of Mindoto was made to a man named Poole, and that Poole was only a agent, the money being put up by Horace Havemeyer and two others, one of whom is a stockholder and director of the Sugar Trust, is significant enough."

"More startling is the fact that these transfers were permitted at the very time that the government had the sugar trust under investigation for frauds committed in the New York custom house."

"It is also true," said Mr. Martin, "that the government was knowingly negotiating with the heads of the sugar trust, through Attorney-General Wickersham's former law firm, Strong & Cadwalader, when Henry W. Taft, the President's brother, was a member of that firm."

"These facts and other couple the sugar trust and the administration so closely that there is no lost motion. They make still more apparent the reasons why the administration has opposed a congressional investigation of the sugar trust. An finally, they absolutely disqualify Attorney-General Wickersham to further conduct prosecutions of that trust."

Mrs. Emma Green

Kidney and Bladder Trouble.

Mrs. Jackson Hadley, Esopus, N. Y., writes:

"It is with the greatest pleasure I write this. For years I have suffered terribly with kidney and bladder trouble. The pain in my back by spells was so great I could scarcely stand on my feet, and such terrible headaches and pain around my heart, and was so nervous all the time that life seemed a burden to me."

"I paid out a great many dollars both for doctors and patent medicines, and no benefit followed the time."

"One day, looking through a Peruna almanac, I saw how many had been benefited by using Peruna. I followed directions and after taking four bottles of Peruna can stand on my feet and work all day with comfort. The pain in my back and head has entirely left me, and I am not so nervous, and can say I am completely cured from all kidney trouble."

Internal Catarrh.

Mrs. M. E. Seymour, R. F. D. 2, Bowman, Georgia, writes:

"I am ready to speak a few words in favor of Peruna and Manalin."

"I have tried them for nearly every ill of life for myself and family, and find them to be all the doctor claims them to be. Peruna cured me of internal catarrh when my doctor could not."

Headache and Weak Back.

Mrs. Emma Green, 913 Jason Street, Room 7, Denver, Col., writes:

"Peruna has been a great blessing to me. I suffered agonies with severe headaches and a weak back, and could hardly drag myself around."

"A friend who was visiting me was taking Peruna for the same trouble, and induced me to try it. I soon found that I was being helped, and in less than three weeks I felt like a different woman, and in four months I was well. Peruna certainly gave me strength."

"I consider it an ideal woman's remedy."

Systemic Catarrh.

Mrs. Augusta Pauline Ochs, R. F. D. 2, North English, Iowa, writes:

"I took Peruna over three years. I suffered from systemic catarrh and had pains in my right side so I could hardly do my house work."

"I am 66 years old, and am now doing all my house work. I am in the best of health, and cannot thank Dr. Hartman enough for his good advice and medicine."

transfers were permitted at the very time that the government had the sugar trust under investigation for frauds committed in the New York custom house.

"It is also true," said Mr. Martin, "that the government was knowingly negotiating with the heads of the sugar trust, through Attorney-General Wickersham's former law firm, Strong & Cadwalader, when Henry W. Taft, the President's brother, was a member of that firm."

"These facts and other couple the sugar trust and the administration so closely that there is no lost motion. They make still more apparent the reasons why the administration has opposed a congressional investigation of the sugar trust. An finally, they absolutely disqualify Attorney-General Wickersham to further conduct prosecutions of that trust."
